

Project Initialization and Planning Phase

Date	1 October 2026
Team ID	SWTID-2026-1235
Project Name	EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

Define Problem Statements:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A college student preparing for exams	Understand a difficult concept quickly	Textbooks and search results are lengthy and hard to follow	They are not personalised to my level	Frustrated and overwhelmed
PS-2	A self-learner with limited time	Revise a topic and test myself	I cannot find ready-made practice questions	Creating quizzes manually takes too long	Unsure about my preparation
PS-3	A beginner in a new subject	Follow a structured study plan	I do not know where to start	There is no guided, adaptive learning path	Lost and demotivated
