

Data Flow Diagram

Date	1 October 2026
Team ID	SWTID-2026-1235
Project Name	EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	2 Marks

The DFD shows how data moves between the Student (external entity), the EduGenie processes, the configuration store and the Google Gemini API.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.

Symbol	Element	Description
Oval	Student (User)	Sends topic/question and receives the explanation, quiz or study plan.
Oval	Google Gemini API	External generative AI service that returns the generated answer.
Process 1.0	Capture Query	Web interface collects the learner's input.
Process 2.0	Validate & Build Prompt	FastAPI endpoint validates input and builds a task-specific prompt.
Process 3.0	Generate Response	Module logic calls Gemini and parses the response.
Process 4.0	Format & Display	Structured result is shown on the web interface.
Data Store D1	Prompt Templates / Config	Prompt templates and the API key stored in environment configuration.
